

SCHOOL DISTRICT ORGANIZATION

Board Development and Self Evaluation

The Board strives to learn, understand and practice effective governance for the benefit of the District. As determined by the Board, individual members have the opportunity to attend state and national meetings designed to familiarize members with public school issues, governance and legislation. Notice of training opportunities will be provided either through the Superintendent or through the Board Chair.

Newly elected or appointed trustees shall be given a copy of the District policy manual and shall have the opportunity to meet with the Superintendent and/or members of the Board for the purpose of answering questions and providing information about the District. The Board Chair may request that a veteran Board member mentor a new member.

As part of the Board's professional development and in an effort to improve on a continuous improvement basis, the Board may conduct a self-evaluation as needed.
