 The Summary of Benefits and Coverage (SBC) document will help you choose a health [plan](#). The SBC shows you how you and the [plan](#) would share the cost for covered health care services. **NOTE:** Information about the cost of this [plan](#) (called the [premium](#)) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, visit [www.askallegiance.com/HDS1](http://www.askallegiance.com/HDS1) or call 1-855-999-8878. For definitions of common terms, such as [allowed amount](#), [balance billing](#), [coinsurance](#), [copayment](#), [deductible](#), [provider](#), or other underlined terms see the Glossary. You can view the Glossary at [www.dol.gov/ebsa/healthreform](http://www.dol.gov/ebsa/healthreform) and [www.cciio.cms.gov](http://www.cciio.cms.gov) or call 1-855-999-8878 to request a copy.

Important Questions	Answers	Why This Matters:
What is the overall <a href="#">deductible</a> ?	Tier 1: \$0 individual / \$0 family Tier 2: \$1,000 individual / \$2,000 family	Generally, you must pay all of the costs from <a href="#">providers</a> up to the <a href="#">deductible</a> amount before this plan begins to pay. If you have other family members on the <a href="#">plan</a> , each family member must meet their own individual <a href="#">deductible</a> (embedded) until the total amount of <a href="#">deductible</a> expenses paid by all family members meets the overall family <a href="#">deductible</a> .
Are there services covered before you meet your <a href="#">deductible</a> ?	Yes. Preventive care is not subject to <a href="#">deductible</a> .	This <a href="#">plan</a> covers some items and services even if you haven't met the <a href="#">deductible</a> amount, but a <a href="#">copayment</a> or <a href="#">coinsurance</a> may apply. For example, this <a href="#">plan</a> covers certain <a href="#">preventive services</a> without cost-sharing and before you meet your <a href="#">deductible</a> . See a list of covered <a href="#">preventive services</a> at <a href="http://www.healthcare.gov/coverage/preventive-care-benefits">http://www.healthcare.gov/coverage/preventive-care-benefits</a> .
Are there other <a href="#">deductibles</a> for specific services?	Yes. \$100 individual for <a href="#">prescription drug coverage</a> . There are no other specific <a href="#">deductibles</a> .	You must pay all of the costs for these services up to the specific <a href="#">deductible</a> amount before this <a href="#">plan</a> begins to pay for these services.
What is the <a href="#">out-of-pocket limit</a> for this <a href="#">plan</a> ?	Tier 1 and Tier 2 Medical: \$5,000 individual / \$10,000 family Pharmacy: \$700 individual / \$1,300 family	The <a href="#">out-of-pocket limit</a> is the most you could pay in a year for covered services. If you have other family members in this <a href="#">plan</a> , they have to meet their own <a href="#">out-of-pocket limits</a> (embedded) until the overall family <a href="#">out-of-pocket limits</a> has been met.
What is not included in the <a href="#">out-of-pocket limit</a> ?	DAW penalties (difference in cost between generic and brand if generic alternative is available), <a href="#">premiums</a> , <a href="#">balance billing</a> charges (unless <a href="#">balanced billing</a> is prohibited), and health care this <a href="#">plan</a> doesn't cover.	Even though you pay these expenses, they don't count toward the <a href="#">out-of-pocket limit</a> .
Will you pay less if you use a <a href="#">network provider</a> ?	Yes. See <a href="http://www.askallegiance.com/HDS1">www.askallegiance.com/HDS1</a> or call 1-855-999-8878 for a list of <a href="#">network providers</a> .	Yes] This <a href="#">plan</a> uses a Tier 1 <a href="#">provider network</a> . You will pay less if you use a <a href="#">provider</a> in the <a href="#">plan's network</a> . You will pay the most if you use a Tier 2 <a href="#">out-of-network provider</a> , and you might receive a bill from a <a href="#">provider</a> for the difference between the <a href="#">provider's charge</a> and what your <a href="#">plan</a> pays ( <a href="#">balance billing</a> ). Be aware your <a href="#">network provider</a> might use an <a href="#">out-of-network provider</a> for some services (such as lab work). Check with your <a href="#">provider</a> before you get services
Do you need a <a href="#">referral</a> to see a <a href="#">specialist</a> ?	No	You can see the <a href="#">specialist</a> you choose without a referral.

# Glossary of Health Coverage and Medical Terms

- This glossary defines many commonly used terms, but isn't a full list. These glossary terms and definitions are intended to be educational and may be different from the terms and definitions in your [plan](#) or [health insurance](#) policy. Some of these terms also might not have exactly the same meaning when used in your policy or [plan](#), and in any case, the policy or [plan](#) governs. (See your Summary of Benefits and Coverage for information on how to get a copy of your policy or [plan](#) document.)
- [Underlined](#) text indicates a term defined in this Glossary.
- See page 6 for an example showing how [deductibles](#), [coinsurance](#) and [out-of-pocket limits](#) work together in a real life situation.

## Allowed Amount

This is the maximum payment the [plan](#) will pay for a covered health care service. May also be called “eligible expense,” “payment allowance,” or “negotiated rate.”

## Appeal

A request that your health insurer or [plan](#) review a decision that denies a benefit or payment (either in whole or in part).

## Balance Billing

When a [provider](#) bills you for the balance remaining on the bill that your [plan](#) doesn't cover. This amount is the difference between the actual billed amount and the [allowed amount](#). For example, if the provider's charge is \$200 and the allowed amount is \$110, the provider may bill you for the remaining \$90. This happens most often when you see an [out-of-network provider](#) ([non-preferred provider](#)). A [network provider](#) ([preferred provider](#)) may not balance bill you for covered services.

## Claim

A request for a benefit (including reimbursement of a health care expense) made by you or your health care [provider](#) to your health insurer or [plan](#) for items or services you think are covered.

## Coinsurance

Your share of the costs of a covered health care service, calculated as a percentage (for example, 20%) of the [allowed amount](#) for the service. You generally pay coinsurance *plus* any [deductibles](#) you owe. (For example, if the [health insurance](#) or [plan's](#) allowed amount for an office visit is \$100 and you've met your [deductible](#), your coinsurance payment of 20% would be \$20. The [health insurance](#) or [plan](#) pays the rest of the allowed amount.)

(See page 6 for a detailed example.)

## Complications of Pregnancy

Conditions due to pregnancy, labor, and delivery that require medical care to prevent serious harm to the health of the mother or the fetus. Morning sickness and a non-emergency caesarean section generally aren't complications of pregnancy.

## Copayment

A fixed amount (for example, \$15) you pay for a covered health care service, usually when you receive the service (sometimes called “copay”). The amount can vary by the type of covered health care service.

## Cost Sharing

Your share of costs for services that a [plan](#) covers that you must pay out of your own pocket (sometimes called “out-of-pocket costs”). Some examples of cost sharing are [copayments](#), [deductibles](#), and [coinsurance](#). Family cost sharing is the share of cost for [deductibles](#) and [out-of-pocket](#) costs you and your spouse and/or child(ren) must pay out of your own pocket. Other costs, including your [premiums](#), penalties you may have to pay, or the cost of care a [plan](#) doesn't cover usually aren't considered cost sharing.

## Cost-sharing Reductions

Discounts that reduce the amount you pay for certain services covered by an individual [plan](#) you buy through the [Marketplace](#). You may get a discount if your income is below a certain level, and you choose a Silver level health plan or if you're a member of a federally-recognized tribe, which includes being a shareholder in an Alaska Native Claims Settlement Act corporation.

## Deductible

An amount you could owe during a coverage period (usually one year) for covered health care services before your [plan](#) begins to pay. An overall deductible applies to all or almost all covered items and services. A [plan](#) with an overall deductible may also have separate deductibles that apply to specific services or groups of services. A [plan](#) may also have only separate deductibles. (For example, if your deductible is \$1000, your plan won't pay anything until you've met your \$1000 deductible for covered health care services subject to the deductible.)

Jane pays 100%      Her plan pays 0%  
(See page 6 for a detailed example.)

## Diagnostic Test

Tests to figure out what your health problem is. For example, an x-ray can be a diagnostic test to see if you have a broken bone.

## Durable Medical Equipment (DME)

Equipment and supplies ordered by a health care [provider](#) for everyday or extended use. DME may include: oxygen equipment, wheelchairs, and crutches.

## Emergency Medical Condition

An illness, injury, symptom (including severe pain), or condition severe enough to risk serious danger to your health if you didn't get medical attention right away. If you didn't get immediate medical attention you could reasonably expect one of the following: 1) Your health would be put in serious danger; or 2) You would have serious problems with your bodily functions; or 3) You would have serious damage to any part or organ of your body.

## Emergency Medical Transportation

Ambulance services for an [emergency medical condition](#). Types of emergency medical transportation may include transportation by air, land, or sea. Your [plan](#) may not cover all types of emergency medical transportation, or may pay less for certain types.

## Emergency Room Care / Emergency Services

Services to check for an [emergency medical condition](#) and treat you to keep an [emergency medical condition](#) from getting worse. These services may be provided in a licensed hospital's emergency room or other place that provides care for [emergency medical conditions](#).

## Excluded Services

Health care services that your [plan](#) doesn't pay for or cover.

## Formulary

A list of drugs your [plan](#) covers. A formulary may include how much your share of the cost is for each drug. Your [plan](#) may put drugs in different [cost-sharing](#) levels or tiers. For example, a formulary may include generic drug and brand name drug tiers and different [cost-sharing](#) amounts will apply to each tier.

## Grievance

A complaint that you communicate to your health insurer or [plan](#).

## Habilitation Services

Health care services that help a person keep, learn or improve skills and functioning for daily living. Examples include therapy for a child who isn't walking or talking at the expected age. These services may include physical and occupational therapy, speech-language pathology, and other services for people with disabilities in a variety of inpatient and/or outpatient settings.

## Health Insurance

A contract that requires a health insurer to pay some or all of your health care costs in exchange for a [premium](#). A health insurance contract may also be called a "policy" or "[plan](#)."

## Home Health Care

Health care services and supplies you get in your home under your doctor's orders. Services may be provided by nurses, therapists, social workers, or other licensed health care [providers](#). Home health care usually doesn't include help with non-medical tasks, such as cooking, cleaning, or driving.

## Hospice Services

Services to provide comfort and support for persons in the last stages of a terminal illness and their families.

## Hospitalization

Care in a hospital that requires admission as an inpatient and usually requires an overnight stay. Some [plans](#) may consider an overnight stay for observation as outpatient care instead of inpatient care.

## Hospital Outpatient Care

Care in a hospital that usually doesn't require an overnight stay.

## In-network Coinsurance

Your share (for example, 20%) of the [allowed amount](#) for covered health care services. Your share is usually lower for in-network covered services.

## In-network Copayment

A fixed amount (for example, \$15) you pay for covered health care services to [providers](#) who contract with your [health insurance](#) or [plan](#). In-network copayments usually are less than [out-of-network copayments](#).

## Marketplace

A marketplace for [health insurance](#) where individuals, families and small businesses can learn about their [plan](#) options; compare plans based on costs, benefits and other important features; apply for and receive financial help with [premiums](#) and [cost sharing](#) based on income; and choose a [plan](#) and enroll in coverage. Also known as an “Exchange.” The Marketplace is run by the state in some states and by the federal government in others. In some states, the Marketplace also helps eligible consumers enroll in other programs, including Medicaid and the Children’s Health Insurance Program (CHIP). Available online, by phone, and in-person.

## Maximum Out-of-pocket Limit

Yearly amount the federal government sets as the most each individual or family can be required to pay in [cost sharing](#) during the [plan](#) year for covered, in-network services. Applies to most types of health [plans](#) and insurance. This amount may be higher than the [out-of-pocket limits](#) stated for your [plan](#).

## Medically Necessary

Health care services or supplies needed to prevent, diagnose, or treat an illness, injury, condition, disease, or its symptoms, including habilitation, and that meet accepted standards of medicine.

## Minimum Essential Coverage

Minimum essential coverage generally includes [plans](#), [health insurance](#) available through the [Marketplace](#) or other individual market policies, Medicare, Medicaid, CHIP, TRICARE, and certain other coverage. If you are eligible for certain types of minimum essential coverage, you may not be eligible for the [premium tax credit](#).

## Minimum Value Standard

A basic standard to measure the percent of permitted costs the [plan](#) covers. If you’re offered an employer [plan](#) that pays for at least 60% of the total allowed costs of benefits, the [plan](#) offers minimum value and you may not qualify for [premium tax credits](#) and [cost-sharing reductions](#) to buy a [plan](#) from the [Marketplace](#).

## Network

The facilities, [providers](#) and suppliers your health insurer or [plan](#) has contracted with to provide health care services.

## Network Provider (Preferred Provider)

A [provider](#) who has a contract with your [health insurer](#) or [plan](#) who has agreed to provide services to members of a [plan](#). You will pay less if you see a [provider](#) in the [network](#). Also called “preferred provider” or “participating provider.”

## Orthotics and Prosthetics

Leg, arm, back and neck braces, artificial legs, arms, and eyes, and external breast prostheses after a mastectomy. These services include: adjustment, repairs, and replacements required because of breakage, wear, loss, or a change in the patient’s physical condition.

## Out-of-network Coinsurance

Your share (for example, 40%) of the [allowed amount](#) for covered health care services to [providers](#) who don’t contract with your [health insurance](#) or [plan](#). Out-of-network coinsurance usually costs you more than [in-network coinsurance](#).

## Out-of-network Copayment

A fixed amount (for example, \$30) you pay for covered health care services from [providers](#) who do *not* contract with your [health insurance](#) or [plan](#). Out-of-network copayments usually are more than [in-network copayments](#).

## Out-of-network Provider (Non-Preferred Provider)

A [provider](#) who doesn’t have a contract with your [plan](#) to provide services. If your [plan](#) covers out-of-network services, you’ll usually pay more to see an out-of-network provider than a [preferred provider](#). Your policy will explain what those costs may be. May also be called “non-preferred” or “non-participating” instead of “out-of-network provider.”

## Out-of-pocket Limit

The most you *could* pay during a coverage period (usually one year) for your share of the costs of covered services.

After you meet this limit the [plan](#) will usually pay 100% of the [allowed amount](#). This limit helps you plan for

health care costs. This limit never includes your [premium](#), [balance-billed](#) charges or health care your [plan](#) doesn't cover. Some [plans](#) don't count all of your [copayments](#), [deductibles](#), [coinsurance](#) payments, out-of-network payments, or other expenses toward this limit.

## Plan

Health coverage issued to you directly (individual plan) or through an employer, union or other group sponsor (employer group plan) that provides coverage for certain health care costs. Also called “health insurance plan,” “policy,” “health insurance policy,” or “[health insurance](#).”

## Preauthorization

A decision by your health insurer or [plan](#) that a health care service, treatment plan, [prescription drug](#) or [durable medical equipment \(DME\)](#) is [medically necessary](#). Sometimes called “prior authorization,” “prior approval,” or “precertification.” Your [health insurance](#) or [plan](#) may require preauthorization for certain services before you receive them, except in an emergency. Preauthorization isn't a promise your [health insurance](#) or [plan](#) will cover the cost.

## Premium

The amount that must be paid for your [health insurance](#) or [plan](#). You and/or your employer usually pay it monthly, quarterly, or yearly.

## Premium Tax Credits

Financial help that lowers your taxes to help you and your family pay for private [health insurance](#). You can get this help if you get [health insurance](#) through the [Marketplace](#) and your income is below a certain level. Advance payments of the tax credit can be used right away to lower your monthly [premium](#) costs.

## Prescription Drug Coverage

Coverage under a [plan](#) that helps pay for [prescription drugs](#). If the plan's [formulary](#) uses “tiers” (levels), prescription drugs are grouped together by type or cost. The amount you'll pay in [cost sharing](#) will be different for each “tier” of covered [prescription drugs](#).

## Prescription Drugs

Drugs and medications that by law require a prescription.

## Preventive Care (Preventive Service)

Routine health care, including [screenings](#), check-ups, and patient counseling, to prevent or discover illness, disease, or other health problems.

## Primary Care Provider

A physician, including an M.D. (Medical Doctor) or D.O. (Doctor of Osteopathic Medicine), nurse practitioner, clinical nurse specialist, or physician assistant, as allowed under state law and the terms of the [plan](#), who provides, coordinates, or helps you access a range of health care services.

## Provider

An individual or facility that provides health care services. Some examples of a provider include a doctor, nurse, chiropractor, physician assistant, hospital, surgical center, skilled nursing facility, and rehabilitation center. The [plan](#) may require the provider to be licensed, certified, or accredited as required by state law.

## Reconstructive Surgery

Surgery and follow-up treatment needed to correct or improve a part of the body because of birth defects, accidents, injuries, or medical conditions.

## Referral

A written order from your [primary care provider](#) for you to see a [specialist](#) or get certain health care services. In many health maintenance organizations (HMOs), you need to get a referral before you can get health care services from anyone except your [primary care provider](#). If you don't get a referral first, the [plan](#) may not pay for the services.

## Rehabilitation Services

Health care services that help a person keep, get back, or improve skills and functioning for daily living that have been lost or impaired because a person was sick, hurt, or disabled. These services may include physical and occupational therapy, speech-language pathology, and psychiatric rehabilitation services in a variety of inpatient and/or outpatient settings.

A [provider](#) focusing on a specific area of medicine or a group of patients to diagnose, manage, prevent, or treat certain types of symptoms and conditions.

## Specialty Drug

## UCR (Usual, Customary and Reasonable)

The amount paid for a medical service in a geographic area based on what [providers](#) in the area usually charge for the same or similar medical service. The UCR amount sometimes is used to determine the [allowed amount](#).

## Urgent Care

Care for an illness, injury, or condition serious enough that a reasonable person would seek care right away, but not so severe as to require [emergency room care](#).
