_____ (Affiant), being first duly sworn under oath, and representing
_____ (hereafter "Proposer"), hereby deposes and says that:

1. I am an attorney licensed to practice in the State of _____, representing the Proposer referenced in this matter, and have full authority from the Proposer to submit this affidavit and accept the responsibilities stated herein.

2. I am aware that the Proposer is submitting a proposal to Helena Public Schools ("the District") in response to a request for proposals for Workers' Compensation coverage. Public agencies in Montana are required by Montana law to permit the public to examine documents that are kept or maintained by the public agencies, other than those legitimately meeting the provisions of Montana's Uniform Trade Secrets Act, Mont. Code Ann. §§ 30-14-401, *et seq.*, and that the District is required to review claims of trade secret confidentiality.

3. I have read and am familiar with the provisions of Montana's Uniform Trade Secrets Act, am familiar with the case law interpreting it, and understand that all information received in response to this RFP will be available for public examination except for:
 - (a) trade secrets meeting the requirements of the Act; and
 - (b) matters involving individual safety as determined by the District.

4. I am aware that in order for the Proposer to claim confidential material, this affidavit must be fully completed and submitted to the District, and the following conditions must be met by the Proposer:
 - (a) information to be withheld under a claim of confidentiality must be clearly marked and separated from the rest of the proposal;
 - (b) the proposal may not contain trade secret matter in the cost or price; and
 - (c) the Proposer's explanation of the validity of this trade secret claim is attached to this affidavit.

5. I and the Proposer accept that, should the District determine that the explanation is incomplete, inadequate or invalid, the submitted materials will be treated as any other document in the agency's possession, insofar as its examination as a public record is concerned. I and the Proposer are solely responsible for the adequacy and sufficiency of the explanation. Once a proposal is opened, its contents cannot be returned to the Proposer if the Proposer disagrees with the District's determination of the issue of trade secret confidentiality.

6. I, on behalf of the Proposer, warrant that the Proposer will be solely responsible for all legal costs and fees associated with any defense by the District of the Proposer's claim for trade secret protection in the event of an open records request from another party which the Proposer chooses to oppose. The Proposer will either totally assume all responsibility for the opposition of the

request, and all liability and costs of any such defense, thereby defending, protecting, indemnifying and saving harmless the District, or the Proposer will immediately withdraw its opposition to the open records request and permit the District to release the documents for examination. The District will inform the Proposer in writing of any open records request that is made, and the Proposer will have three working days from receipt of the notice to notify the District in writing whether the Proposer opposes the request or not. Failure to provide that notice in writing will waive the claim of trade secret confidentiality, and allow the District to treat the documents as a public record.

Documents that, in the opinion of the District, do not meet all the requirements of the above will be available for public inspection, including any copyrighted materials.
